Dear Sudhakarji,

With reference to our mail exchange earlier this week, we regret the delay in placing our quote to you in view of the holidays in Russia for the Orthodox Christmas.

Please find here below the quotation to attend on board as your protective surveyors. As you know Kavkaz is a very unique port where our attendance to ensure a independent and accurate certification requires both shore and on board attendance at anchorage (over a number of days) and these are time consuming.

Pls note the following Rates for below scope of inspection services (Quantity and Quality):

Stage 1.

Attendance during Loading Smaller Tankers at Shore Installations in strict accordance with FOSFA Supervision Rules at Rostov-on- Don.

- Shore Tank Sampling/Ullaging
- Ship`s Tanks (Coasters) Sampling/Ullaging

Our Rate is USD 0.35 p.m.t. (Rostov on Don).

Stage 2.

Attendance on Ocean Vessel at OPL KAVKAZ in strict accordance with FOSFA Supervision Rules:-

- Ship`s Tank Sampling/Ullaging

Our Rate is USD 0.40 p.m.t. (off Russian border road Kavkaz OPL)

Additional Costs.

+ Boat hire to take Surveyor to the Ocean Vessel: Lumpsum USD 600.00

- if loading proceeds more than 10 days, each next day of engagement is to be charged USD 100 extra for each next day involvement.

+ Sampling forwarding and Analysis Costs

Please note that since we have the appointment from MK Agro Tech who will be taking 12000 Tons on this vessel, the additional costs as quoted above will be apportioned as per the quantity between the buyers.

Look forward to serving your interests and await your appointment.

With best wishes !

Kind regards,
Siddharth Amin
