AgriMin Control International

December 24, 2019

Kind Attention : Aziza Tahir
Company : Just Oil and Grain Pte. Ltd . Singapore

Dear Aziza

Thank you for your consideration to utilize our services, we are pleased to provide our proposal on inspection services as below :

Proposal on: Loading supervision for Palm oils in bulk at Indonesian Ports

A) Scope of Inspection:

At Shore Installations

Coordinate with tank terminal/ suppliers on cargo readiness for Pre-shipment sampling of cargo

1. Draw samples from the allocated shore tanks and collect book stock data of quantities
2. Analyze the shore tank composite samples at Independent FOSFA laboratory for the given specifications
3. Declare analysis results to you, However, if any abnormalities in pre-shipment result, seek instructions from you.
4. Sampling / Gauging / Documentation for the operation related at shore tank during PSI / prior to and after loading.

Loading Supervision On Board

5. Monitor Vessel ETA / ETB status and keep you informed.
6. Inspect Vessel's Tanks inspection upon her berthing towards cleanliness to load the nominated cargo.
7. Sampling from ship / shore tanks and distribute appropriately.
8. Gauge manually shore tanks prior to & on completion of loading to determine quantity loaded
9. Draw shore line/ship's manifold/ship's tanks 1st foot samples at the beginning of loading.
10. Joint Sampling will be carried out with supplier's surveyor if any such arrangements required
11. Continuous monitoring of loading activities.
12. Gauge ship's tanks on completion of loading with representative of Vessel to determine quantity received on board
13. Draw ship's tanks samples individually (bottom & average) on completion of loading
14. Carry out investigations in case of abnormal ship / shore differences in order to protect your interest in best possible manner.
15. Ship Tanks Gauging / Calculation/ Documentation as per FOSFA procedures.
16. Sealed Samples of each tank / manifold etc. will be kept in our custody for 90 days from the day of sampling. It will be thereafter disposed off as per internal procedures.
17. In case of any abnormalities noticed related to quantity or quality of this consignment during our attendance, we will carry out suitable investigation to determine the cause in order to report you our findings and opinion.
18. We will procure relevant ship documents as part of our inspection protocol from Ship and / or Terminal related to the assignment.
